

Wrens

Birds play a role in managing insects. Shrubby, prickly and understory vegetation help birds hide and hunt for insects.

Finches

Live in small flocks, in understorey vegetation.

Finches & Wrens

A Pocket Guide of Finches & Wrens, found in Glenwood and surrounding area including Forestry.

Glenwild brochures are a list of all wildlife species known to live or visit Glenwood and surrounding areas including Forestry. Information provided is a general overview of habitat, food, and breeding seasons. All photographs were taken by local wildlife watchers and kindly shared. Photographs were the best available at the time 2023/2025 Contributors have adhered to Birdlife Australia's "Ethical Birding Guidelines" (2012)
